

Cable Solutions for the Telecom World.

- Optical cables
- Copper cables
- Coaxial cables
- Termination products

### 4SProducts Reseller/Distributor Application

4SProducts offers its communication products in the United States and internationally through its resellers, currently covering Canada, Mexico, the Caribbean, Puerto Rico, South America, Europe and the Middle East. In today's challenging telecom environment, distributors/resellers are always striving to bring more value to their customers, by way of providing an ever-expanding range of quality products and services, while controlling costs and maintaining control. 4SProducts Distributor/Reseller Program allows you to add a comprehensive range of communication cabling products to your product mix.

We are currently interested in adding potential partners to extend our geographic coverage and complement our product/service offerings. Distributors do not have to carry complete product line but can be considered for specific products from our complete line. If you are interested in becoming a 4SProducts Reseller/Distributor Partner, please complete and return this application by e-mail, fax and/or mail to the address shown below.

We appreciate your interest in 4SProducts and look forward to hearing from you. Following review of your company application, 4SProducts will identify possible areas of alliance and contact you for further discussions.
